

A magical introduction for others

Introducing others

If you would like to introduce someone to our ceremonies, please contact us with their details rather than sending our email to them.

We need to know:

- Their first name and surname
- Their email address
- How you know them
- A little bit about why they want to come

Please ensure that you only introduce people that you know well and trust, not just casual acquaintances.

We recommend that you explain to your friend the nature of our ceremonies and ensure they feel ready to make such a big commitment.

Generally, we only accept introductions once you have already attended one of our ceremonies. Our only exception to this is if you are both booking into your first experience with us and want to come together.
